

KEY MESSAGES**MEETING DATE: Wednesday May 23, 2018**

- All participating organizations provided roundtable updates.
- AHS labour representative provided an update on current collective bargaining.
- AH requested volunteers from each organization to participate in a planning committee for the upcoming 2018 Minister's Continuing Care Forum.

AHS Health Analytics Portal

- AHS presented an overview of the Tableau reporting platform that houses the Health Analytics Portal.
- The Health Analytics Portal allows AHS and external partner organizations to view various health system data reports prepared and regularly updated by AHS.
- The goals of the Health Analytics Portal are to liberate data and improve quality outcomes by empowering system partners with better information.
- AHS will follow-up with the associations to support the associations in gaining access to the Portal.

Health Care 101 Project

- A representative from IMAGINE Citizens Collaborating for Health provided information about the developing Health Care 101 project, a citizen-led initiative that aims to provide free online information about Alberta's health system.
- The purpose of the project is to help Albertans better understand their health system and thereby empower them to more effectively participate in health system planning and their own health care services.
- Health Care 101 will be hosted on the www.MyHealth.Alberta.ca website, and newly updated content is expected to be launched soon.

Health Advocate Office & Seniors Advocate Office – What We're Hearing

- The Alberta Health Advocate and Seniors Advocate offices presented an overview of the history, governing legislation, mandates and work of their teams.
- The presentation also outlined current and emerging issues related to continuing care that are frequently being brought forward by Albertans.
- Topics highlighted by the Advocates' Offices were organized under four main categories: Access, Quality, Education/Information Needs, and General (such as the social and emotional needs of Albertans with care needs).

The next meeting, scheduled for July 25, 2018, will be used for the purposes of planning the upcoming 2018 Minister's Continuing Care Forum.
