National Long-Term Care Day

Friday, June 13, 2025

Context

The Canadian Association of Long Term Care (CALTC) is thrilled to mark our second annual National Long-Term Care Day in Canada. This milestone day not only recognizes the significant advocacy efforts and achievements within the long-term care sector but also serves as a reminder of the unwavering dedication and compassion of the staff who provide essential care to thousands of Canadians living in long-term care. It's also a day to honour residents and their families, and to celebrate our community together.

This kit has been developed to provide CALTC members and LTC home operators with resources and tools to help recognize and celebrate National Long-Term Care Day on Friday, June 13. We look forward to seeing support and participation in promoting and celebrating this special day among LTC associations and homes!

We also invite long-term care homes across Canada to use the resources in this kit to share photos and stories of how they are celebrating and highlighting this important day.

Within this toolkit you will find:

- A **template letter** to write to your local MPs, requesting their support for the day and if appropriate, to visit the home on June 13th.
- Draft **social posts and creative assets** that you can use to share on any organizational and/or personal social media networks.
- A link to a **printable poster** for display in the home or local community.
